Train Kills Six Horses

On Thursday morning last six head of horses, five belonging to Wm. McCrimmon, and one to M. L. Casey, were killed by an early morning train on the C.P.R. right-of-way about three miles north of town.

Suicide Near Didsbury

On Friday, February 26, George Feil, was found hanging from a beam in the barn at Harry Seibel's farm east of Didsbury. The case was investigated by Dr. J. L. Clarke, coroner of Didsbury, and Constable J. S. Jarman of Crossfield. It was a case of suicide, no inquest was necessary.

Might Have Been A Disastrous Fire

On Monday night a near catastrophe was narrowly averted in the home of D. H. McFadyen. Shortly after everyone had retired for the night Mrs. McFadyen became aroused at the smell of smoke and awoke the household. They found the house full of smoke and fire of unknown origin had started in the cellar.

The smoke being so dense that none of the family could get into the cellar. Help was summoned from the Hotel, and "Shorty" Weber and Bob Shearer, with wet handkerchiefs over their faces, managed to get into the cellar and put out the fire, which had burned into the flooring.

ON THEIR HONEYMOON

Mr. and Mrs. Conrad Hergert, were visitors in town on Sunday. Mrs. Hergert will be remembered as Miss Evelyn Mol, formerly of the Oliver Cafe. Mr. and Mrs. Hergert are at present visiting at the home of the former's parents in the Hawkeye district, previous to moving onto a farm at Grangerville, Alberta.

Notes From The Annual Meeting M. D. of Rosebud

A. S. Gough, Reeve, was called upon to explain various items of the financial statement, which was discussed in full and adopted.

The Reeve gave information regarding a new assessment due to be made this year, and after discussion, it was moved by Mr. Fitzgerald, seconded by Mr. Anderson, that "in view of prevailing conditions, this meeting considers that there is no necessity at present for another assessment; that the expense entailed thereby would be unjustifiable, and the Secretary be instructed to have the resolution brought to the attention of the authorities." Carried.

A resolution from Sunshine Local U. F. A., regarding the necessity for economy was left to the Council.

The question of collection of school taxes was discussed and various suggestions submitted.

Mr. Marlowe seconded by Mr. Ainscough, moved that the Council suggest to the School Districts that teachers be asked to accept a proportion of salary until more money was available. Lost.

An amendment by Mr. Purvis, that no "resolutions be passed regarding School Districts and that this matter be left to the Council" was seconded by Mr. Farner and was carried.

Mr. Huser gave a short address on soil drifting, which was much appreciated.

Moved by Geo. Huser, seconded by Thos. Fitzgerald, that "a hearty vote of thanks be extended to the Council for their work in so ably handling the affairs of the district during the past year."

BORN—To Mr. and Mrs. Earl Devins, at Okotoks, on March 2nd, 1932, a daughter.

Legion To Hold Whist Drive on March 29th.

The regular meeting of the Crossfield Branch of the Canadian Legion was held in the Fire Hall on Saturday afternoon. President Allan Montgomery presided. 20 members were present.

Frisk-McIntyre, that the secretary write notifying all those who have been made honorary members.

Hall-Bartholemew, that the secretary write to Dr. Stanley, M. P. and to E. J. Garland, M. P., that Remembrance Day remain as at present, a statutory holiday.

The President read a letter re the shortage in Canteen Funds, which caused considerable discussion by all members.

Gravel-Bartholemew, that the secretary write to the Calgary Legion re distribution of canteen fund, and to ascertain if Crossfield Branch is entitled to share in these funds.

Frisk-Gravel, that, F. Stevens and H. McIntyre, be appointed as a Relief Committee, and that the funds in the savings account be at the disposal of this committee.

Crocker-Gravel, that, a special committee be appointed for each separate entertainment.

Crocker-Hall, that, a whist drive and social evening be held in the Masonic Hall on March 29th.

J. Crocker and W. Major were appointed as a committee to have charge of this event.

Moved by Franks-Bartholemew, that Ed. Meyers be elected an honorary member.

The next meeting will be held on Saturday, March 26th.

Siebert Re-Elected

Levi Siebert was re-elected to the Council of the Municipal District of Rosebud, in Division 5 on Saturday, when he piled up a majority of 23 over F.H. Spalding.

The members of the Council for 1932 are as follows: A. S. Gough, H. T. Stewart, Geo. Ainscough, G. G. Murdoch, Levi Siebert, and W. Edmondson.

Cream Prices Hit Skids

C. C. Stafford received a cheque for 93 cents on Saturday morning, in payment for a 46 lb. can of cream shipped to Calgary. With the price of special cream at 12c and eggs at 12c to 15c per dozen, we wonder what the price of these two products will be this summer—and still farmers are urged to go into mixed farming.

Curling Is Over

The curling rink has been closed, following one of the most successful seasons in the history of the Club. The chinook of last week played havoc with the ice, and at this time of the year, it would not pay to put it in shape.

The ladies' just nicely got started this year, and judging by the interest shown, they will have at least six rinks to start off with next season.

CHILDREN'S CLOTHING IS BADLY NEEDED

An appeal is made this week for children's clothing, as several urgent calls have been received during the past week.

One woman from the Big Prairie country, writes they have a family of seven children, who are without clothing and shoes, and that they have no means of securing any.

Mr. Fitzpatrick and Constable Jarman have sent out all the clothing collected so far. If you have any children's clothing that you have no further use for, just bundle it up and leave it at the Atlas Lumber office with Mr. Fitzpatrick and he will see that it is sent out to families as above mentioned who are in dire circumstances.

RUSSIAN TROOPS MOVING TOWARD MANCHURIA

Mukden, Manchuria.—Several thousand Russian soldiers are moving down toward the Manchurian frontier, presumably because of Moscow's apprehension over Japanese troop movements in northeastern Manchuria, the Rengo (Japanese) news agency reported from Harbin.

Meanwhile, the Japanese expedition, headed by General Ito Tamon and aimed at Chinese rebels in the vicinity of Imienpo, was held up. Difficulties developed in getting permission to transport troops over the Chinese Eastern railway, jointly owned by Russia and China.

Officials of the railway said they were unable to furnish trains requested by the Japanese because they had not received instructions to do so from Moscow.

Tokyo, Japan.—The cabinet approved an extraordinary appropriation of 22,000,000 yen (currently \$7,940,000) to meet additional military expenses in connection with the Japanese expedition to Shanghai.

Japanese military authorities are working at top speed—and under the protection of censorship—to carry out the cabinet decision to double the army forces at Shanghai. Meanwhile residents of Tokyo had some direct contact with warlike preparations. Troop trains passed close to the city and there were other military measures which gave the public a chance to put on demonstrations for the departing soldiers.

Question Of Deportation

Matter Is Raised In British House Of Commons

London, Eng.—The question of deportation of British immigrants from Canada was raised in the House of Commons when Rt. Hon. J. H. Thomas, secretary for the Dominions, assured the House the government was in constant communication with the Canadian government on the matter. The ultimate authority was the Dominion government, he believed.

In 1930, Mr. Thomas told a questioner, Canada deported 296 persons who had gone out under state-assisted schemes, on the ground they had committed offences; and 1,402 because they had become a charge on the public. In 1931 the figures were, respectively, 267 and 1,531.

Guilty Of Excesses

Large Number Of Chinese Put To Death By The Japanese

London, Eng.—The foreign office published the second report of the committee of observers constituted at Shanghai by the League of Nations Council.

"Since February 4," it said, "a state of open war has existed here." It reported a large number of Chinese apparently had been put to death by the Japanese but no trace of many of the victims had been found.

The Japanese consul, the commission reported, admitted that there had been excesses. Although some of the cases had been cleared up, the number of deaths still unaccounted for is large.

Has Labor Support

Reported Move Will Assure De Valera Comfortable Majority

Dublin, Irish Free State.—The Labor Party, which will hold the balance of power in the next Dail Eireann, reported it would line itself up with Eamon de Valera's Fianna Fail (Republican Party) to oust President William T. Cosgrave from office if he does not resign by March 9, the day on which the dail will convene.

Such a move on the part of the Laborites would assure De Valera a comfortable majority on a motion to elect him president of the executive council (cabinet)—that is, president of the Irish Free State.

British Columbia Shingles
Vancouver, B.C.—A train load of 32 cars of British Columbia shingles, part of an order for 34 cars, representing 7,000,000 shingles, or enough to roof over 400 average dwellings, is now rolling to eastern Ontario.

Censor Troop Movements

Tokyo, Japan.—Censorship was invoked again to cloak the movement of Japanese reinforcements to the Shanghai front. Only meagre accounts of military preparations appeared in a few newspapers.

Exploitation of a large coal basin in Madagascar is planned.

W. N. U. 1931

Corn From Africa

Shipment Received In Calgary To Be Used For Poultry Feed

Calgary, Alberta.—Believed a precedent, a shipment of corn from Africa arrived in Calgary for delivery to local feed dealers recently. The shipment came from Vancouver and will be used for poultry feed.

The dealers receiving the corn explained that it was cheaper to purchase African corn at present than the North or South Dakota product which had previously been used by them. The African corn, they declared, was better suited for the purpose, being harder and smaller than the United States variety.

SIR MALCOLM SETS UP A NEW SPEED RECORD

Daytona Beach, Fla.—Sir Malcolm Campbell, British speed king, wrote another thrilling chapter to his years of racing history by hanging up a new world's automobile speed record of 253.96 miles an hour over a mile route.

The 48-year-old driver who has been blazing new speed marks down the "roaring road" for a quarter of a century, drove his 12-cylinder "Bluebird" car twice over the ocean course to surpass by 5.235 miles an hour his former record of 245.733 established in the same car here last year.

On his first run, made southward over the beach, Sir Malcolm attained the speed of 257.459 miles an hour. Upon reaching the south end of the course, he immediately turned his bullet-nosed machine around and shot back northward over the beach at a speed of 241.773.

He covered the mile on his first run in 13.46 seconds and flashed across that distance on his second trial in 14.89 seconds for an average time of 14.17 seconds for both runs.

In establishing a new record over the mile, Sir Malcolm clipped .47 of a second off his old record.

On his return Sir Malcolm also established new world speed records over the beach. Sir Malcolm attained the speed of 257.459 miles an hour, but the announcement was not made public by officials until after they had checked their calculations.

Sir Malcolm's new record for the kilometre, which is approximately 2,000 feet less than a mile, was 251.340 miles an hour, compared with his former record for that distance of 246.086. His new record for five kilometres was 241.569 miles an hour as compared with his old record of 216.045.

Volcano In Action

Tokio, Japan.—The volcano Asama near Kanazawa, northwest of Tokio, went into violent eruption for the third time in a month, scattering ash and stones over a wide area, setting fire to nearby forests and damaging a few houses in the nearby villages.

SETS NEW RECORD

Sir Malcolm Campbell, British "speed king," who hung up a new world's speed record of 253 miles an hour with his "Bluebird" racing machine on Daytona Beach.

Boost Churchill Port

Expect That Twenty Ships Will Be Needed To Take Care Of Cargoes

Winnipeg, Man.—Churchill, Manitoba's far north port on Hudson Bay, to be opened this summer, will be extensively used during its first open season, Brig-Gen. R. W. Paterson, president of the On-to-the-Bay Association, predicted. He said possibly 20 ships would be required to take care of cargoes available.

Majority of the ships that will make the journey through Hudson Straits from British and European ports will have bulk cargoes, Gen. Paterson said, but he believed at least half a dozen would carry package freight.

Arrangements are being made by grain and cattle interests in western Canada to take full advantage of the new route, the On-to-the-Bay president said. Annual meeting of the On-to-the-Bay Association will be held at Moose Jaw, Sask., March 23 and 24.

Murderous Attack

Blaine Lake School Teacher Is Seriously Wounded By Gunner

Saskatoon, Sask.—The spotlight of notoriety was again turned on Blaine Lake, Doukhobor settlement in northern Saskatchewan and the scene of several incendiary school fires during the past few months, as word was received of a murderous attempt on the life of Miss Olga Wasley, 22-year-old school teacher, of Moose Jaw, as she lay in her bed in a little schoolhouse about six miles from Blaine Lake. Miss Wasley was the target of two shots from an unknown gunman, who smashed the window and used a shotgun in his efforts to kill the young teacher.

Word of the shooting was almost immediately followed by the arrest of Pete Dowienko, 18, son of a Doukhobor farmer, living one mile from the school.

Russian Wheat Shortage

Soviet To Use Thirty-Two Million Bushels For Seed

Ottawa, Ont.—The Dominion Bureau of Statistics has received a cable from London giving the official text of the Molotov-Stalin decree regarding Soviet grain. It announces that 1,928,000,000 pounds of grain (32,100,000 bushels) will be sent to collective and state farms in the drought areas for seed and food, the principal areas affected being the lower and middle Volga, Kazakhstan and western Siberia regions.

It is also decreed that the collection of grain for spring sowing on collective farms shall be 5,700,000 metric tons, to be completed in the principal areas by March 10.

Up to February 10, 39 per cent. of this program had been fulfilled. This report gives further evidence of the suspected crop failure over large Russian areas last season and explains in large measure why south Russian wheat shipments have fallen to such low levels in the past few months.

Victims Of War

Rt. Hon. Arthur Henderson Makes Appeal On Behalf Of Children

Geneva, Switzerland.—Rt. Hon. Arthur Henderson, president of the world disarmament conference, addressed an eloquent appeal to the assembled delegates in behalf of the children of the world, who he said, are always the victims of war.

President Henderson's address marked the closing of general discussions at the conference. It held a note of hopefulness.

Many millions of children were sacrificed behind the lines in the Great War, he said, to tuberculosis, rickets and other diseases which ruthlessly destroyed a rising generation.

Found Flight Difficult

Aviators Take Six Weeks For Trans-Canada Trip

Victoria, B.C.—Battling ice and fog for practically the entire six weeks consumed for the trip, and dogged by ill luck in the form of three minor crashes, W. H. Cross, Victoria, owner, and Earl Grubbs, Montreal, aviator, landed here to complete their trans-Canada flight from Montreal to Victoria.

"We did not have one clear day all the way across Canada," said Cross, describing the difficulties of long winter flying.

Quebec Favors Sweepstakes

Hamilton, Ont.—Representatives of 48 municipalities from all over Ontario condemned sweepstakes as a means of raising money to meet real expenditure in the province. Prediction that Dominion-wide sweepstakes would soon be a reality was made by Mayor Houde. If Ontario was not prepared to co-operate, Quebec would lead the way, he said, declaring, "I'm going to start it in Montreal."

BRITAIN'S EMERGENCY CABINET'S ITS ALL NIGHT ON WAR SITUATION

News from London, England, states that Britain's Emergency Cabinet Committee sat all night keeping in constant touch with the latest developments in Shanghai. The committee will maintain contact with the situation in China and will be prepared to meet on one hour's notice. This is the first time since the World War that such a Committee has been formed. Above are five of the seven Emergency Cabinet members: Left, top and bottom, Sir John Simon, Foreign Secretary; Lord Haldane, Secretary of War. Centre: Right Hon. Stanley Baldwin, Lord President of the Council. Right top and bottom: Neville Chamberlain, Chancellor of the Exchequer; and Sir Samuel Hoare, Secretary of State for India.

Comparison Favors Canada

Banking System Of Dominion Is Praised By American Official

Washington, D.C.—Comparison between the banking systems of Canada and the United States to the disadvantage of the latter appears in the report of the treasury appropriation bill.

Comptroller of Currency John W. Pole told a congressional committee there had been 2,290 bank failures in the United States during the calendar year 1931 and none in Canada since 1923.

"It is a sad commentary on our system," he said, "when we realize that with an imaginary line running between Canada and the United States, where the same character of people live and where the same economic conditions prevail, there is this great difference in banking conditions. The people on both sides of the border have similar characteristics. They are only separated by an imaginary line, while on one side they have had no bank failures whatever, on our side there have been hundreds of bank failures."

May Terminate Trade Agreement With Russia

British Government Is Urged To Take Immediate Action

London, England.—The trade and industry committee of the Conservative party decided to urge upon the government immediate steps to terminate the Anglo-Soviet trade agreement.

The committee reached its decision it said, in a desire to see Great Britain free to take appropriate steps to remedy present unsatisfactory industrial conditions and to give representation to the United Kingdom greater freedom in their conversations with the Dominions at the Imperial Conference at Ottawa next July.

PLAN TO RAISE LARGE SUM FOR POLITICAL ACTION

Saskatoon, Sask.—Undismayed by financial difficulties and dwindling membership due the organized farmers of Saskatchewan re-elected their principal officers and embarked on a determined effort to raise money for the political battle they plan to wage within the next year.

A. J. Macauley, Fascist, steadfast proponent of political action, was unanimously re-elected president of the United Farmers of Canada, Saskatchewan section, at their convention here, and J. F. Herman, Rocanville, was re-elected vice-president.

At the same time the delegates to the convention pledged themselves to raise the sum of \$10,000 for the treasury of the association within the next four months and failing that to consider ways and means of disbanding.

With a view to facilitating the enrollment of members the present membership fee of \$5 per year was reduced to \$2 for a family, this to include children under 16 years of age. Individual adult membership fees were placed at \$2 and fees for persons between the ages of 16 and 21 at \$1.

Re-election of Mr. Macauley puts the stamp of approval on his work during the past year in organizing the Saskatchewan farmers on a political basis and in attempting to form a working alliance with farm bodies in other provinces as well as with the Labor Party. It was Mr. Macauley, too, who broached the suggestion for amalgamation of the three prairie provinces, Manitoba, Saskatchewan and Alberta into one government.

The financial difficulties of the farm organization are due in part to the practice of collecting their fees through the wheat pool. Members authorized the wheat pool to deduct the amount of the fee from the second payment on the crop and turn it over to the United Farmers of Canada. Since 1929 no second crop payments have been made by the pool and some \$65,056 in dues is tied up in wheat pool regulations. A resolution was passed calling for the termination of this arrangement at the earliest possible moment.

Many delegates expressed dissatisfaction with the working of the present Saskatchewan Debt Adjustment Act. The convention decided to ask the provincial legislature to amend the act to provide management of the debt adjustment commission to three members with the chairman a trustee in bankruptcy. Another amendment was requested to prevent the launching of any legal proceedings for the recovery of debts without the permission of the commission.

ONE PARTY TO BE REPRESENTED AT IMPERIAL PARLEY

Ottawa, Ont.—Premier Bennett and the leader of the opposition found themselves in agreement in the belief that Canada's representation at the Imperial Conference should be made up of supporters of the government and not of all parties of parliament.

In discussing the currency stabilization motion, Premier Bennett digressed briefly to discuss this aspect. The prime ministers of some of the Dominions in the commonwealth had from time to time contended that it was rather unkind that only one party should be represented, and that the government of the day must assume the responsibility for what is done at the conference, the premier added.

"But that view has not obtained and is not likely to obtain," added Premier Bennett.

"Hear, hear," said Mr. King. He was glad Mr. King agreed with him, Mr. Bennett continued. The principle upon which opposition to the conference had been based, was that the government of the day must assume responsibility for what is done at the conference, the premier added. "I am bound to say," Mr. Bennett proceeded, "that I used to think that at Imperial conferences it would be much better if all parties could be represented. But in discussions I have had since responsibility has fallen to my lot, it has appeared that there might be difficulties to which the right honorable gentlemen has in times past referred. Whatever there may be of value in it from an academic viewpoint, as a practical matter it need not now be discussed, for the government will accept responsibility."

Improvement In Wheat Situation Is Predicted

Statistical Experts Believe Canada Will Again Sell To Europe

Ottawa, Ont.—Cables from Italy, Germany and Russia brought encouraging news from a Canadian standpoint in regard to the wheat situation. Italy is allowing its millers to use a larger percentage of foreign wheat beginning March 1. Germany is soon to be a buyer of wheat again. Meanwhile, from Russia comes word of shortages for seedling purposes in the Volga, Siberia and Kuybyshev areas.

The despatch from Berlin predicting Germany will soon be buying wheat, is corroborated in letters which Hon. H. H. Stevens, Minister of Trade and Commerce, has received. Statistical experts of the department also expressed the opinion that very soon Spain would lift the barriers against foreign wheat as her domestic supply becomes exhausted. France was been relaxing her restrictions until now the millers can mix 20 per cent. of foreign wheat and this may be increased.

Statistical experts here take the view that very soon Italy, France, Spain and Germany will all be buying wheat. This, it is suggested, should help Canada materially. The Dominion has approximately 185,000,000 bushels of wheat for export.

Heavy Grain Shipments

Over Six Million Bushels For United Kingdom Pass Through Vancouver

Vancouver, B.C.—During the past two weeks approximately 6,200,000 bushels of grain have been booked for shipment through this port for the United Kingdom and the continent, according to local grain brokers.

During the past week, the weekly report of the Vancouver Merchants' Exchange shows, shipments totalled 3,431,056 bushels, bringing the season's total to 43,430,886 bushels. At this time last year the export was 45,511,070 bushels.

Awarded Flying Trophy

Ottawa, Ont.—The Trans-Canada Trophy for 1931, given annually for merit aviation service for the advancement of aviation in Canada, has been awarded to George H. R. Phillips, superintendent of eastern flying operations with the provincial air service of Ontario. The award was announced by Hon. D. M. Sutherland, Minister of National Defence.

Germany Accepts

Geneva, Switzerland.—Germany accepted the draft convention of the preliminary disarmament commission as the general framework for discussion of the world disarmament conference, thus postponing one of the most stubborn snafus which confronted the delegates.

Gardening Notes

EASILY GROWN SHRUBS

There should be a few flowering shrubs in every garden, advises the Dominion Horticulturist, W. T. Macoun. Among the most satisfactory, in order of blooming, according to this authority, are the Spirea, Arguta and Van Houttei, Russian Pea Shrub and Caragana Frutex. These are all very hardy. In the milder parts of the country one can grow the Forsythia or Golden Bell, which is very early and well worth planting both for flowers and foliage. Followed in these are the Japanese Rose, also known as the Rose Rogers, the Philadelphia variety 'Virginia' or any other of the many good varieties of Mock Orange, the Hydrangea, Lilacs, Honeysuckles, Weigela and, if one has room for a few small trees with attractive flowers more than the ordinary outdoor season as is available in most parts of the Dominion. These will include tomatoes, cabbages, head lettuce, egg plant and peppers, among the vegetables, and Petunias, asters, marigolds, zinnias and other flowers, some of which must be started under glass and all of which will come on earlier if handled in this way. A hot bed is simply a bit of glass covered garden and one foot by six feet suitable for the sash on hand, will produce an amazing amount of material. Either dig out the bed a couple of feet deep in some well drained place or build up wooden sides to this height. In the bottom put a layer of fresh horse manure, which has been turned frequently to prevent burning, and pack this down tight to the depth of a foot. On this put a couple of inches of good garden soil. The glass cover should be about twelve to fourteen inches above the top of the soil and should slope towards the South to catch the full rays of the sun and to allow any rain to run off. The bed will heat up for about a week and then cool down when it is ready to plant. Sow the seed in rows about two inches apart and later transplant from this into a cold frame, which is similar to the hot bed but without the manure, before putting the plants outside. Some thinning will be required to prevent plants from being too spindly, and it will also be necessary to ventilate on warm days by raising the sash a little. In cold weather water sparingly and only on warm days. Early lettuce, radish, cress and other salad material can be grown and harvested right in the hot bed.

HOT BED IS CHEAP GREENHOUSE

The gardener, especially if he has a little more room than usual, will find a hot bed invaluable. In this he can start all his own vegetables and flowers which require more than the ordinary outdoor season as is available in most parts of the Dominion. These will include tomatoes, cabbages, head lettuce, egg plant and peppers, among the vegetables, and Petunias, asters, marigolds, zinnias and other flowers, some of which must be started under glass and all of which will come on earlier if handled in this way. A hot bed is simply a bit of glass covered garden and one foot by six feet suitable for the sash on hand, will produce an amazing amount of material. Either dig out the bed a couple of feet deep in some well drained place or build up wooden sides to this height. In the bottom put a layer of fresh horse manure, which has been turned frequently to prevent burning, and pack this down tight to the depth of a foot. On this put a couple of inches of good garden soil. The glass cover should be about twelve to fourteen inches above the top of the soil and should slope towards the South to catch the full rays of the sun and to allow any rain to run off. The bed will heat up for about a week and then cool down when it is ready to plant. Sow the seed in rows about two inches apart and later transplant from this into a cold frame, which is similar to the hot bed but without the manure, before putting the plants outside. Some thinning will be required to prevent plants from being too spindly, and it will also be necessary to ventilate on warm days by raising the sash a little. In cold weather water sparingly and only on warm days. Early lettuce, radish, cress and other salad material can be grown and harvested right in the hot bed.

FREEZING AND THAWING KILLS

Most damage to wintering plants, fruit trees, climbers and similar things, takes place at this time and later and not during the Fall and January when the ground is usually frozen hard and the sun is not very strong. Killing results when the weather turns warm in the day time and the sap is turned up in the stems from the roots. Your innocent perennial, shrub, rose or strawberry thinks that Spring has arrived and starts to grow only to be killed back by the low temperatures during the nights. If the ground is bare, sometimes the surface will thaw during the heat of the day and then freeze and leave up at night, which movement breaks off the tiny feeding root and weakens or kills the plant. Deep snow is Nature's protection against this sort of thing and to encourage snow or to replace it without cover our beds and place around our shrubbery a mulch or straw manure, leaves, burlap or garden refuse. The old tops of perennials if tramped down loosely over the bed are a good thing. Too fine a mulch or frozen slush or water is not advisable for this may smother the plants under-

"What do you think of world peace?"
"I shall never believe in it so long as my wife is alive!"—Vikings, Oslo.
W. N. U. 1931

neath. Do not remove the covering too soon, but do not let it until the plants start to push their way through it or the stems will be too weak and spindly.

Small Town Or Big City

Queer Idea That Large Place Necessary For Best Work

There has of late been a widespread expression of opinion in the press that it is much better to live in a small town or in the open country than in the crowded cities. "Will we eventually take our biggest cities apart," asks the Quebec Chronicle-Telegraph, "and get over the notion that we have to huddle together in vast groups in order to make a go of things?"

It may be so. Cities became big for certain reasons, but will these reasons, the main ones, exert in the future as much effect as in the past? Large centres of population will always attract, by a power like gravitation, further population. To the city will go the bold seeking fortune, the curious to see sights, the afflicted to consult specialists, the unemployed for work, the dishonest to hide identity in the multitude and shake off the past. The bright lights, the amusements, the athletics, the music, the libraries, the picture galleries and museums, all these attract each its kind. But it is about as easy to motor from Brampton to Whitby to see a hockey match in Toronto as it is to motor across the city to see the same game.—Toronto Star.

Colored Auto Tires

To Manufacture Tires That Will Of Car

United States prosaic tire shops are preparing to blossom out in a symphony of color. One of the large manufacturers in Akron, Ohio, is preparing a stock of tires intended to harmonize with the color scheme of the particular automobile to which they are fitted. The color pigments will be impregnated into the "tread" of the tire, a new process, to be known as "color weld." The treads will remain neutral color. The symphony in color and design is practically unlimited. Not only may the automobile purchaser choose maroon, pink, orange, green, blue, or yellow tires to harmonize with his new roadster or town car—he may choose a combination of tire colors, with a variety of tones and shades. Nor will the new tires be limited to solid colors. Polka dots, dotted patterns, stripes and modernistic designs are not improvable. However, it is expected that for the present the manufacturers will not attempt to rival the average tire dealer in variety.

Labelling the shelves according to color, as well as size, may keep the tire dealer busy enough for a time.

Final Figures On Population

Dominion Population Is Now Placed At 10,374,196

Final figures for the population of Canada by provinces, as shown by the 1931 census, were announced by the Dominion statistician. The Dominion population is 10,374,196, compared with 8,728,483 in 1921, an increase of 1,645,713.

Prince Edward Island, Nova Scotia and the Northwest Territories decreased in population, and the other provinces increased.

Prince Edward Island dropped from 36,915 to 35,038; Nova Scotia from 523,537 to 512,846, and the Northwest Territories from 7,988 to 7,133.

New Brunswick increased from 387,876 to 408,219, 5.25 per cent; Quebec from 2,261,199 to 2,874,355; Ontario from 2,933,672 to 3,431,685; Manitoba from 610,113 to 700,139; Saskatchewan from 757,510 to 921,785; Alberta from 588,454 to 731,605; British Columbia from 524,582 to 694,263; Yukon from 4,157 to 4,350.

British Columbia during the last decade has increased in population at a greater rate than any other province. In total population it stands sixth, following Ontario, Quebec, Saskatchewan, Alberta and Manitoba.

Refuse To Reduce Rates

The Board of Railway Commissioners for Canada has refused an application from carriers of British Columbia for reduced freight rates from Pacific points to destinations in the prairie provinces. In a second judgment, the board ordered the railways to publish the same stop-off rates for Canadian goods shipped from British Columbia to the prairie as those in effect in eastern Canada.

It takes eight gallons of special oil to give each of the elephants in the London Zoo its annual "beauty bath."

Paraguay has a new tax on the income of partnerships and corporations.

HOLDER OF UNIQUE OFFICE GETS TWO SALARY CUTS

In the main estimates blue book tabled in the House of Commons, there is a small item of \$135 wedged between appropriations of millions of dollars, marked payable to Ernest Snowden, of Ottawa, for firing the noon-day gun on Parliament Hill. Every day Snowden, who is employed in the Post Office Department, trudges up to the ancient cannon behind the East Block and shelters the witnesses of Parliament Hill precisely when the sun is at its meridian. Ever since Snowden has fired the gun he has been paid \$150 per annum, but the reduction of \$15 to be paid him in the next fiscal year represents the 10 per cent. reduction which is applied to all civil servants' salaries. He is believed to be the only government employee who is paid two distinct salaries from the official purse and who in consequence will get a reduction in the two from the one source. Mr. Snowden is shown firing the ancient cannon, a job which is regarded by the tender youth of the Capital as one of great distinction.

Ice Cream Industry

Total Production For 1930 Was Valued At \$13,412,550

Canadians have a decided predilection for ice cream, according to a special report on its production in Canada just issued by the Canadian Government Bureau of Statistics covering the calendar year 1930. The total production was 9,708,195 gallons valued at \$13,412,550. This is exclusive of the ice cream made in hotels, restaurants and ice cream parlours. The per capita consumption of ice cream in the Dominion is one gallon, an increase of 66.8 per cent. since 1925. The provinces showing the highest per capita consumption were Nova Scotia, Ontario, and British Columbia with 1.42, 1.30 and 1.02 gallons respectively.

Convicts Are Good Students

Four Thousand At San Quentin Taking University Course

One-fourth of the population of San Quentin prison in California—1,096 men serving sentences ranging from two years to life—slept past a platform of educationists recently and received certificates of completion of a 3-month course of university study. It was "announcement day" at California's largest prison. More than half of the total number of prisoners are studying high school and university courses behind its gray walls and after January 1, some 4,000 were enrolled in classes that embrace everything from philosophy to arithmetic and electrical engineering.

Would Be Big Job

If the owners of all cars equipped with wire and steel wheels manufactured during 1931 were to clean their spokes they would have to remove dirt from nearly 5,000 miles of wire and tubing at each cleaning. Of all the automobile wheels made in the United States, about 80 per cent. are wire or steel. Each wheel requires on an average of 30 to 25 feet of wire or tubing, though the number of spokes varies.

A modern brick maker can mold from 1,000 to 1,800 bricks a day.

Port Of London

Ships and Sailors From Every Land Under The Sun

No port in the world excels London in the variety of cargoes received. Along the miles of Dockland may always be seen ships and sailors from every land under the sun. There is wool from the Antipodes, shells from the Southern Seas, fish from the Arctic and Antarctic, furs from Canada and Russia, marble from Italy and the Near East, timber, wines, drugs, rubber, fruits, minerals and precious gems daily form the cargoes that mingle in the Port of London. There is the ever present, the ubiquitous Briton, the matelot of France, the swarthy Greek, the nimble Lascar, the silent Swede, the care-free American, the Dane, Spaniard, Italian and every other sailing nationality of all ranks and ratings.

Russia Protects Herself

Busy Making Border Fences With Soviet Neighbors

Soviet Russia initiates a non-aggression pact with Poland. Germany likes it because it does not specify the Versailles Treaty boundary between Germany and Poland; Lithuania likes it because it does not recognize the legality of the Polish occupation of Vilna. Having made a pact with Finland, the Soviet turns to Roumania, with which it differs over Besarabia. If the Soviet can protect itself from all its neighbors with pacts it may be able to do something that would please the world and perhaps itself—divert some of its vast soldier energy into industry.

Had To Manufacture Fog

England's popular reputation for being a land of fog has proved vastly over-rated; scientists who studied air pollution in England recently, were so hampered by the inadequate amount of fog that they had to make fog artificially.

Dr. Franz Fischer, director of the Kaiser Wilhelm Institute for Coal Research, informs that coal in small doses stimulates plant growth and acts as a satisfactory fertilizer.

BONZO

By Studdy

New Canadians

21,592 Persons Became Naturalized Canadian Citizens During Last Year

A total of 21,592 persons became naturalized Canadian citizens during the fiscal year which ended March 31, 1931, according to the report of the state department, tabled in the House of Commons recently. Of these the largest individual nation group was from Russia, with 4,006. Certificates issued numbered 10,897, covering the whole number of naturalizations and embracing the names of wives and minor children.

During the year 27 certificates of naturalization were revoked. Most of the nationalities of the world were represented in 20,000 new Canadians, Central Europe figuring very largely in the lists. Poles were second to Russians, with 3,522. The third largest national group was composed of Americans, whom 2,339 were naturalized.

Others were: Italians, 2,067; Austrians, 2,008; Serbians, 929; Germans, 143; and Norwegians, 668.

One Afghan, one Cuban and one individual from the state of Mount Lebanon, Syria, received certificates, while the nationality of one person granted naturalization could not apparently be defined since he was recorded as having "no country."

Buffalo Meat Shipments

Meat and Hides Shipped To Various Parts Of Canada

Shipments of buffalo meat and hides from the vast government preserve at Wainwright have been completed for this season, according to N. B. Walton, general superintendent of transportation for the Canadian National Railways.

Approximately 1,200 animals were slaughtered during the past two months and 24 refrigerated cars of meat and two thousands of hides were shipped to various parts of Canada.

The hides were shipped to Calgary tanneries and Calgary also received the largest consignment of meat with eight carloads. Five cars were billed to Montreal and the remainder were shipped to Toronto, Winnipeg, Regina, Prince Albert, Edmonton and Vancouver.

Canada's great buffalo herd has now been reduced to less than 6,000. This was the first time that it was found necessary to reduce the Wainwright herd on account of the overtaxing of grazing facilities. The original herd, purchased by the Dominion Government in 1907, numbered 716 animals, and this herd has increased naturally by 20 per cent. each year.

The Deflated Dollar

Adverse Trade Balance With United States Works Hardship

The importance of a favorable balance of trade is being brought home sharply to the Canadian people by the hardworking experience of the deflated dollar in New York, declares a statement issued by Hon. H. H. Stevens, Minister of Trade and Commerce. The statement reviews Canada's trade and concludes:

"The situation is that although Canada in its general trade has a favorable balance, the Canadian dollar has suffered in New York because the balance with the United States is adverse."

"Canada's trade is undergoing a change and its effect upon the Canadian dollar abroad has been to improve its standing. The prospect is that it will still further improve in the immediate future."

A favorable balance of trade is vital.

"Great Britain and United States are Canada's best customers, and it is in connection with the latter that the Canadian dollar has suffered."

Never Insulted

A young commercial traveller set out for the first time to get orders in the west of England. At Plymouth he met an old acquaintance traveller, who asked him how he had got on. "Badly," he replied. "I was insulted at every place I visited." "That's strange," said the other. "I've been on the road 40 years; I've had my samples hung into the street; I've been taken by the scarf of the neck and pitched downstairs; I don't deny that I've been rolled in the gutter, but I've never been insulted."

A New Grievance

It is not very easy to find a new feminine grievance today and Miss A. Kenway's complaint is that there are three masculine pronouns (he, him and his) to two for the woman (she and her) will stir only the hearts of grammarians and a few of those. Shall we yet find a grievance founded on the fact that "man's" comes earlier in the dictionary than "woman's"?

Too many spent yesterday what they were going to save today.

Life In Russia

Children Are Taught To Hate Capitalism and Religion

How Russia looks to an American citizen and what the Russian people think of American civilization were some of the points touched upon by H. G. Zavoral, livestock extension specialist of the University of Minnesota, Department of Agriculture, in a talk at one of the women's meetings of the Northwest School Farmers' Week and Red River Valley Winter Shows, Crookston. This talk was based upon personal observations of life in Russia which Mr. Zavoral gained last year while assisting the Soviet government in the development of its five-year swine production programme.

"In Russia, so far as education is concerned, the usual social order is reversed," Mr. Zavoral told his listeners. "All children must go to school until they have finished the eighth grade but after that only the children of parents who were poor before the Communist system of government was adopted are granted the privileges of an education."

"The Soviet Government formulates all programmes of education; children are taught to hate capitalism and religion. Communism is supposed to be their religion and Lenin their god. They are told all the bad things about our country—our depression, our bank failures, our break lines and our crime problems—but nothing about the advantages which we enjoy."

"Often I have had Russians approach me and ask the questions, 'When will there be a revolution in America?' 'Will you Americans free the slaves?' These are samples of the thinking of the Russian people."

"The Soviets are destroying most of the Russian churches and hope to close them all by 1933. Many churches are being used for theatres, club rooms and storage houses. Some of these churches are the most wonderful examples of architecture in the world, but still the government is tearing them down. Among these is the 'Church of the Redeemer' which was built to commemorate Napoleon's defeat at Moscow. It took 83 years to build this church but it recently has been razed."

"Ministers and priests are forbidden to live in the Russian cities and have no means of subsistence except the charity of the people."

"There are thousands of homeless children running wild in Russia, the waifs of parents who are dead or children who have run away from home. They travel in bands of three to 20 and range in age from eight to 20 years. The Soviet government has caused many of them and put them in institutions, but many of them run away at the first opportunity. The care of these children is one of the unsolved problems which confronts the Soviet government."

Debtor Nations Cannot Pay

With France and United States Holding Bulk Of Gold

When the war debts were incurred it was the situation that although Canada in its general trade has a favorable balance, the Canadian dollar has suffered in New York because the balance with the United States is adverse. The United States does not want to be repaid in goods, and the debtor nations do not have gold to spare. In fact, there are only eleven billion dollars of the gold held by the nations of the world, and United States and France hold 75 per cent. of that already. Even if the debtor nations were willing and able to pay, how are they to do it?—Farmers' Advocate.

Of German invention is a motor driven pump for fighting fires that has a capacity of 20,000 gallons of water an hour and is light enough for two persons to carry.

A psychologist says that most of us are too fond of people that agree with us. And of food that doesn't.

Female grasshoppers will lay from 600 to 800 eggs at a time.

The modern gymnastic method of getting the baby to sleep—Jugend, Munich.

Rings On Douglas Spruce Indicate That Ancient Tree Has Lived For 3,200 Years

Man's intelligence has discovered that various objects, animate and inanimate, reveal in their own bodies records of the ages, but that his own body is not similarly endowed, and when discovered presents evidence of the most disputable nature. Not so with trees. A tree is a self-revelation, as is told in an address appropriately delivered by Professor F. E. Lloyd before a section of the Canadian Pulp and Paper Association at Montreal. The tree speaks in the language of botany, and to those conversant with the tongue, discloses its age. The rings on a Douglas spruce on this continent, for instance, prove that it has lived 3,200 years; and probably nothing else that is living and is not vegetable, so similarly indelibly survives for thousands of years.

Prof. Lloyd reverts to what has happened in the world since the seedling of that ancient spruce germinated. He sees Abraham leaving Ur of the Chaldees to start his pilgrimage. He sees the Christian religion being founded. The storms that have buffeted that tree in vain have blown on a host of wars, migrations and upheavals. The leaves on it have come, and gone, and come again, endlessly, but dynasties that believed themselves implanted everlastingly have been cast down into the dust.

Man, the family of man, has been unwise in his belief to disclose the story of his adolescence. His age has always been problematical, and none agrees who was first, or how old were the oldest. Man might, like a horse, have his age told by his teeth, but what he now has reputedly indicates a stage in the dental art. His periodicity has been set by the lowness of his brow, but low-brows are claimed by high-brows to be as indicative of man in the present as they were of him in pre-galactic eras.

No such uncertainty beclouds the age of the venerable Douglas spruce. Its birth certificate is in its trunk. Its rings make a weather chart of the centuries. The narrow rings tell the seasons which were short and cool; the wide rings record the years of warmth and sunshine. That old tree tells the story of the weather for three thousand years.

Man's body does not reveal even the weather of the ages, and tells less than do the trees whose pulp substance is despoiled for its impermanency and woodiness of intellect. Man's age can only be inferred from the buried bones and trinkets he leaves strewn in his primitive habitat. The early history of the inhabitants of British Columbia has been told by Professor Hill Tout through what he has dug out of their middens at Vancouver. But as remotely of the past as are the utensils picked up from where the cave-woman threw them, they are but of yesterday in the lives of the magnificent old Douglas spruce.—Winnipeg Free Press.

The Oldest Field Root

The mangel appears to be one of the oldest of our cultivated root crops, states the Agrostologist of the Federal Department of Agriculture. Although exact records are not available the production of the mangel can be traced back as far as 2000 B.C. The evidence of its production at that date is contained on an old plate, found in an Egyptian grave. This plate represents a labourer placing a large root on a table as a sacrifice. According to Theophrastus red and white roots were commonly cultivated in Asia Minor as far back as 320 B.C.

More than 120,000 radio receiving sets of three or more tubes each were manufactured in Austria last year, more than five times as many as were made four years ago.

"Good-bye, my boy. Enjoy your holidays and try to return with a bit more sense!"
"Thank you. Same to you, sir!"
—Pages Gales, Yverdon.

W. N. H. 1937

Farmers Will Benefit

Trading In Hogs On The Basis Of Official Grades

The new hog grading regulations put into effect by promulgation in the "Canada Gazette" of January 30 extend the provisions for trading in hogs on the basis of official grades in such a way as entirely to eliminate flat-price trading. Hogs sold from farmer to other producer right down the line to the final packer or processor must be traded in on the basis of official grades. This ensures to the farmer full benefits of the agreement with the packing industry whereby a premium of one dollar is paid for all hogs grading "Select Bacon." The regulations also provide for that premium for quality, which is rightly his, passing back in larger measure to the original producer. Complete information as to grades and the procedure to be followed can be secured on application to the Department at Ottawa.

Some Good Blind Cools

Acute Sense Of Touch And Sound Makes Success Possible

It is surprising to learn that it is now possible to teach blind people to cook, and that some of them are doing very well indeed at this work. They distinguish different ingredients by means of the sense of touch. The same sense also helps them in measuring quantities and in the management of the cooking-stove. Other senses come into play. Sound tells the blind cook when a liquid begins to simmer, when it gets hotter, and finally when it boils. And if a dish is cooking too quickly, that fact is advertised by the sense of smell. Electric stoves are safest for the blind cook.

By Annette

DELIGHTFULLY PRACTICAL LITTLE RIG FOR A TINY GIRL FOR PLAYTIME

It is so cute, dainty and swinging of skirt. And all because the designer inserted godets at the front of this one-piece dress. They are merely little pieces of the material cut circular at the hem, tapering to a point toward the waistline. And isn't the deep pointed collar attractive?

It's as easy as A, B, C to make it! And it requires such a small amount of material, it will cost you next to nothing.
The original was yellow and white dimly print with plain yellow. The bias piping was brown.
Style No. 988 is designed for sizes 2, 4 and 6 years. Size 4 requires 1 1/2 yards 35-inch with 5/8 yard 35-inch contrasting.
Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Canadian Wheat Flour

May Launch Campaign To Demonstrate Value For Bread Making

A campaign to demonstrate to the people of Europe the value of Canadian wheat flour for bread making, is under consideration of the department of Trade and Commerce, H. H. Stevens, Minister of that department, told the supply committee of the House of Commons.

The details of the scheme are being worked out and the announcement was perhaps premature as definite plans were lacking. He had been greatly encouraged by similar campaigns carried out in the past and he was of the opinion that advertising might play a leading part in a return to prosperity.

Mr. Stevens referred to the recent campaign to further the interests of Canadian grape growers. The government had contributed financially, and there had been remarkably successful results. A campaign to popularize the Canadian apple abroad and to stimulate interest in European in Canadian sea foods and in Canadian cattle, had met with marked success.

Have Double Inclination

Reason Given As To Why Some People Stutter

People who stutter were pictured by a scientist at Baltimore, as being like a motorist trying to "step on the gas" and apply the brakes at the same time.

A battle for control between "starting" and "stopping" mechanism in the brain is the cause of stuttering, the American Orthopsychiatric Association was told by Frederick W. Brown, member of the committee for mental hygiene.

One part of the stutterer's brain, the motor complex, which controls speech is urging "go ahead and say it," while another part, the thalamus, which responds to emotional stresses is clamoring "Don't say it!" Stuttering occurs only when the speaker's emotional responses get out of control, Brown declared.

An Embarrassing Present

"If someone gave you a railroad as a present, what would you do with it?" The St. Thomas Times-Journal wants to know. Personally, we should try to find out what we had done to the donor that he should play us such a dirty trick. Even ties are likely to be embarrassing when received as presents, to say nothing of rails and trains and stations and such.

Wild Life Sanctuaries

Jasper Park is the greatest wild life sanctuary in all Canada. It is estimated that there are 22,000 mountain sheep within its borders; 7,000 Rocky Mountain goats, 22,000 moose deer, 3,500 elk, 10,000 mule deer, 10,000 caribou, and 4,000 bear. Banff comes next with 4,000 mountain sheep, 2,000 goats, 5,000 mule deer, 1,500 elk, 150 moose and 250 bear.

Government aid is asked by the Ulster farm industry.

Many Instruments Of War

Submarine Not Only Menace To Human Lives

On the eve of the World Disarmament Conference, the submarine again has made tragic appeal for some cessation in the arming of nations against nation. The sinking of the M-2 in the English Channel raised the total of men lost in peacetime operation of submarines during the last ten years to 613.

Of course, this is only a part of the price paid in human lives for the privilege of preparing for war. The submarine is only one instrument of warfare. In the United States alone fatalities with military airplanes have reached half that figure during the same period. The total for 'planes in all nations must exceed it. Experiments with poison gases and other weapons have added their quota.

But the prolonged tragedy of submarine disasters has evoked a special outcry against undersea craft. It is also said that they are a stealthy weapon. But is an airplane dropping bombs or gases at night upon a civilian population any less furtive? It is argued, too, that submarines have no peacetime usefulness. Have ten-inch guns any greater utility?

This is no defence of the submarine. But just at this time when the nations are thinking about putting away some of their weapons, it may be well to recognize that other instruments of human slaughter may be no less hateful in war and useless in peace.—Christian Science Monitor.

British Columbia Lumber

Mills Are Looking Forward To Large Orders From Britain

Details of the new British tariff containing a preference for British Columbia lumber will go a long way towards improving conditions in the lumber industry in that province. British Columbia exports about 100,000,000 feet of lumber a year to Great Britain, out of a total British import of some 4,000,000,000 feet. It is believed B.C. should get a large share of the total if it enjoyed a preferential tariff. But the immediate problem, surprisingly enough, will be for B.C. plants to supply any large orders that may come from Britain, particularly as new orders are coming in heavily from Australia to B.C. mills.

What He Owes and Owes

It is important that the farmer know what he owes and what he owns, and he is in a position to present this information in a business-like way to his banker in case a loan is required. The lender is entitled to a true statement of the financial affairs of the man who would borrow from him.

A Travelling Dental Parlor

Fully equipped as a surgery and a waiting-room, and carrying a dentist and a nurse, a motor dental surgery car is now visiting the 11,000 children in the ninety schools under the Isle of Ely County Council.

Clever Speaker Turns Back Pages Of Canadian Political History To The Days Of Macdonald

Storing Potatoes

Tubers Keep Best At A Temperature Around 38 Degrees

The current issue of the newsletter issued monthly by the Dominion Dairy and Cold Storage Branch contains an interesting reference to some of the effects of freezing on potatoes. Potatoes keep best at a temperature around 38 degrees Fahrenheit. At any temperature below this some starch is converted into sugar. The lower the temperature the greater the change. A sweet flavour is not a sign that a potato has been frozen but merely that they have been kept so cold that sugar has accumulated—frozen potatoes are soft and unusable. Sweetness can be overcome by storing potatoes for a few days at ordinary room temperature.

A Bit Of History

Reason Highland Clan Was Massacred By English King

The massacre of the MacDonalds of Glencoe, a Highland clan, occurred in February, 1692. King William III. had issued a proclamation by which all clans were required to submit by 1st January, 1692. For one reason or another this particular clan had failed to make submission, and the Master of Stair, Sir John Dalrymple, obtained a decree to "extirpate that set of thieves," which the King is said to have signed in ignorance of its real meaning. Eye-witnesses under seventy were to be killed, and this was done by one hundred and twenty soldiers of a Campbell regiment who had been hospitably received by the Highlanders.

Two Good Walters

"Do you know, John," remarked Mrs. Jaggs, as her husband tumbled upstairs, "that I've been awake for hours waiting for you to come home from the club."
"If that isn't just like a woman!" growled Jaggs. "And I have been at the club for hours waiting for you to go to sleep."

Outlived Them All

Oldest Inhabitant (to district visitor): "I be ninety-four, and I 'avert got an enemy in the world."
District Visitor: "That is a beautiful thought!"
Oldest Inhabitant: "Yes'm; thank God, they be all of 'em dead long ago!"

Vimy Ridge Monument

The Vimy Ridge monument, largest memorial ever erected, will be completed in 1935. Hugh L. Alward, Toronto, son of Walter S. Alward, the sculptor, stated upon his arrival from England. The monument, commemorating the capture of Vimy Ridge in 1917, will be 145 feet high.

Turning back the pages of Canadian political history to the days of Macdonald, Tilley, Tupper and Blake, R. S. White, veteran Conservative member of the House of Commons, recently spoke before the Canadian Club of Ottawa.

Mr. White, who sat in the parliamentary press gallery a half century ago and looked down from that vantage point on the political giants of the period, gave it as his considered opinion that the average ability of the House of Commons today is as high as it has ever been. Fifty years from now, he said, people will be talking of the political giants of today, just as we now do of those who trod the political stage in 1882.

Mr. White, who knew politics and statesmen not only as a journalist, but also as a member of the House of Commons, told the Canadian Club that he was "degraded" from the press gallery to a seat on the floor of the House in the year 1888. He represented the Ontario constituency of Cardwell.

At present he represents Mount Royal. Mr. White delighted his listeners with many anecdotes of political figures who have passed into history. Just in passing, he expressed the view that "one of the vices of our House of Commons" is the long speech.

People might agree or disagree with the policies of Sir John A. Macdonald, but all must admire his talents, Mr. White said. Sir John, in his opinion, was "the daddy of them all." The old Conservative leader was not what would be called a good speaker. It was his personal popularity which was his great asset. Mr. White told how Sir John would come back and quiet the "back benchers" when quiet reigned in the House of Commons.

It had been his pleasure and privilege to know Sir Wilfrid Laurier well. "A charming man and a great orator," he called the Liberal leader. He spoke of Sir Charles Tupper who had "actually foamed at the mouth" in the course of one of his fiery exhortations to the House of Commons. He referred to Sir Leonard Tilley, Hon. A. Mackenzie, Sir John Thompson, Hon. William Patterson, Sir Richard Cartwright and others who stand out from the pages of political history. He quoted Hon. William Patterson as saying once, when dealing with the question of patronage, that "all other things being equal, a Liberal should have the job."

"And," added Mr. White to the amusement of his audience, "all other things were equal, and the Liberal got the job."

Speaking of Hon. Edward Blake, Mr. White said that in power and in respect to pure intellect no able man ever sat in the House of Commons. Sir Richard Cartwright, he said, was frequently very sharp and bitter in parliament. "I almost think he disliked Conservatives," said Mr. White, "and that he regarded them as a different breed of dog altogether."

Student Dies From Injuries

V. A. Wood, fourth-year student injured in an explosion in the mining building at University of Toronto, is dead. Wood was working under the direction of Professor M. C. Bonwell, when the explosion wrecked the laboratory. It shattered all windows of the fourth floor. One other student was seriously injured, but his condition is not critical.

Hostess: "Then you managed to get here tonight, after all?"
Absent-Minded Professor: "Yes, I meant to forget to come, but I forgot to forget it."

France buys more than she sells to China.

"What are you looking for, miss?"
"They told me that an old sea dog was to be found on this pier, but I can't see it anywhere."—Nagels Lustige Welt, Berlin.

As a result of the unrest and rebellion seething in the Kashmir State, where a population predominantly Moslem is ruled by a Hindu Maharajah, Great Britain may call upon the present ruler, Maharajah Hari Harisingh Bahadur, to resign in favor of his infant son, who would rule under a regency established by the Motherland. The picture (top) is very interesting in that it shows the present Maharajah of India speaking at the India Round Table Conference in London, England. Below is a view of the wonderful palace of the Rajah.

WORLD HAPPENINGS BRIEFLY TOLD

Canada's investment in highways is said to total \$900,000,000, covering roads estimated at 390,000 miles in length.

Waterloo bridge is sinking and must be replaced by a new one which will cost \$1,295,000. The present bridge was opened in 1817.

A total of 21,392 persons were naturalized during the fiscal year ending March 31, 1931. Twenty-seven certificates were revoked. The naturalized were mainly central Europeans.

Furniture and other articles recently seized by the police in Mahatma Gandhi's seminary brought \$133.22, when they were auctioned to help pay taxes on the property.

William Miller, 78, pioneer, is dead at Calgary. He attended the ceremony of driving the last spike into the Canadian Pacific Railway line at Craigellachie, B.C., in 1885.

The Citroen-Haardt-Asiatik-Expedition, travelling 8,000 miles across Asia, met temperatures ranging from 120 degrees above zero to 16 degrees below.

Premier Talmie of British Columbia does not agree with the three reports tabled at Ottawa stating the Peace River outfit was not feasible at present. He supports building of the outfit.

W. F. Powell and R. M. McLeod, reading of the departure of an expedition to seek treasure on the Cocos Islands, recall a similar unsuccessful expedition they took part in 45 years ago to seek the same treasure.

There will be no change in the French disarmament and reparations policy under the government headed by Andre Tardieu, the premier told the Chamber of Deputies in his first ministerial declaration.

A bill to link Glacier National Park with Waterton Park across the Canadian border in an International Peace Park has been reported favorably by the United States House of Representatives public lands committee.

Her Majesty Queen Mary, accompanied by the Duke of York and Prince George, visited the Canadian industrial section at the British Industrial fair at Olympia, London, England, according to a cable received by the Department of Trade and Commerce.

C. N. R. Branch Lines

\$648,000 To Be Expended On Construction Work This Year

A total of \$648,000 will be expended on branch line construction for the Canadian National Railways this year, that amount being authorized in the 1929-1932 programme, according to a return tabled by R. J. Manion, Minister of Railways, in the House of Commons. The number of branch lines are completed, but work this year will be confined to five, of which two are in Alberta, one in Saskatchewan, one each in British Columbia and Ontario. The programme follows: Bulwerk (Alberta), estimated, \$15,000; Bramford (Ontario) cut-off, \$332,000; Hemanuka-Scapa (Alberta), \$115,000; St. Walburg (Saskatchewan) Bonyville, \$35,000; Lulu Island (B.C.), \$174,000.

Expenditures in connection with the programme up to December 21, 1931, amounted to \$17,610,769. During the year the sum of \$4,378,000 was spent. The amount authorized in the schedule, plus the customary 15 per cent, totalled \$33,061,350.

A number of the constructions have been discontinued for the time being.

Still Some Differences

There are still some differences between the sexes, despite the desperate efforts to eradicate them all and we never saw a man earnestly endeavoring to ascertain by a prolonged study of the outside of the envelope whom the letter came from, instead of opening it and finding out at once and for sure.

Anyone who has lived through 1931 safely ought not to be afraid of anything 1932 can do to him.

Gasoline Tax

Net Revenue Shown For Saskatchewan For Year 1931

The Saskatchewan gasoline tax resulted in a net revenue of \$1,254,084.30 being received into the provincial treasury in 1931, figures made public in the legislature disclosed.

The total amount collected through the tax was \$2,458,875.29, of which \$1,148,528.50 was retained in addition to \$56,085.00 paid out by way of commissions for collections.

In addition, it was stated by Hon. A. C. Stewart, Minister of Highways, that 91,276 automobile licenses were issued in 1931, 15,678 licenses for trucks, 41 for public vehicles, 110 for freight vehicles, 306 for motorcycles, 670 for heavy vehicles, 2 for pedal bicycles with motor attachments and 1,107 for trailers.

A Good Investment

Big Business In Oil Developed From Few Gifts

About a quarter of a century ago the Standard Oil Co. gave away without cost a large number of kerosene oil lamps and stoves in China and throughout the Orient. This was designed to increase the demand for kerosene oil. It was a good investment. Today tankships operated by the Standard Oil and the Shell Oil Companies carry many millions of gallons of kerosene to Oriental countries annually. While electric lighting is common in port towns, throughout the Orient the interior cities and towns as well as the rural districts still employ kerosene oil as their principal means of lighting.

DECIDEDLY SMART DAY DRESS
 FOR MATRONS OR ANYONE
 WHOSE FIGURE NEEDS
 SLIMMING

You'll love this dress. It is black canton-fabric crepe silk. It has the lines which have been proven by experience as becoming to the heavier figure. It also has the new modern sleeve flounce and a quite one-sided about its white crepe rever that provides so much smartness and charm.

Some may like the rever to tone with the dress, which is also very smart and a bit more practical.

It is especially fascinating in soft royal blue shade crepe silk. Printed crepe silk is attractive in this model with the rever and sleeve flounce of plain crepe in blending tone.

Style No. 672 is designed for sizes 36, 38, 40, 42, 44 and 46 inches bust. Size 36 requires 9 3/4 yards of 39-inch material with 1/2 yard of 39-inch contrasting.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

SUNDAY SCHOOL LESSON

MARCH 6

JESUS WASHES HIS DISCIPLES' FEET

Golden Text: "The Son of Man came not to be ministered unto, but to minister, and to give His life a ransom for many."—Matthew 20:28.

Lesson: John 13:1-15.

Devotional Reading: Isaiah 53:13 to 53:6.

Explanations and Comments

Supreme Love and Supreme Treachery, verses 1 and 2.—Before partaking of the Feast of the Passover, Jesus was fully aware of the death awaiting Him, and the washing of the disciples' feet was a last illustration of His uttermost love for his own—His disciples with whom He had lived so long and so intimately. Side by side with His Lord's great love for them, the Evangelist places the treachery of Judas Iscariot, who at the supper fully made up his mind to betray Jesus.

Supreme Power and Lowliest Service, verses 3-5.—In later years Peter wrote this admonition: "All of you gird yourselves with humility to serve one another." Was he not thinking of the girded towel about his Lord and the lowly service performed on that last night that Jesus accompanied with His disciples? The consciousness of power, mission and destiny did not deter Jesus from this humblest of tasks which He set Himself; rather did it urge Him to undertake it. He arose from the table, poured water into a basin, and began to wash the disciples' feet.

"No impulse is too splendid for the simplest task; no task is too simple for the most splendid impulse." —Phillips Brooks.

Stunning Love, verses 6-9.—"Dost Thou wash my feet?" Peter exclaimed when his Master came to him. In the Greek the words "my foot"—thou, of me—are in emphatic contrast at the beginning of the sentence. "What I do thou knowest not now; but thou shalt understand hereafter." Christ's answer, is partly explained in verses 12-17.

"Thou shalt never wash my feet," impetuous Peter cried out. Recall Matthew 16:22. "It is the old strange mixture of self-conceit and self-distrust; the self-conceit of old, which under the shadow of Hermon had called upon him so stern a rebuke when he had said, 'That be far from Thee, Lord; this shall never be unto Thee'; the self-distrust of old, that looked on the Sea of Galilee and had flung him on his knees, with that great cry wringing from his yearning heart, 'Depart from me, for I am a sinful man, O Lord.'"—F. W. Farrar.

"I love Simon; I have made pretty much the same blunders as he has, only the publicity has not been given to them."—G. W. Bull.

"If I wash thee not, thou has no part with Me," no part in my fellowship and kingdom, was Jesus' answer. Peter did not fully understand, but he was wholly loyal to his Lord. His resolution of feeling was complete when he cried, "Lord, not my feet only, but also my hands and my head."

Clean Seed For Farmers

Hon. Mr. Buckle Announces Plan For Cleaning Wheat In Relief Area

The Honourable W. C. Buckle, Minister of Agriculture, announces plans for the cleaning of wheat supplied to farmers in the relief area of Saskatchewan.

The stocks in local elevators will be distributed insofar as they are satisfactory and farmers will take the wheat home and clean it or they may arrange with custom cleaning outfits to clean it. Some of these may be operated by private individuals and some by municipal councils. An alternative is to have it cleaned by the local elevator or milling company.

The cost of cleaning the wheat is included in the price and those cleaning it themselves can claim a rebate from the Saskatchewan Relief Commission of 2 1/2 cents per bushel.

When a farmer is unable to clean it himself he will make his own arrangements for getting it cleaned and the Relief Commission will pay to the cleaner a rate not exceeding 2 1/2 cents per bushel for the quantity of wheat cleaned. The charge will be based on the quantity of uncleaned wheat (excluding commercial damage), put through the cleaner.

The operator of the cleaning machine will be required to submit to the Relief Commission satisfactory evidence of cleaning. Proper forms for this purpose can be obtained from the local relief officer.

The Relief Commission will only accept responsibility for cleaning charges on wheat supplied by the Relief Commission.

Any cleaning for which the Relief Commission pays must be satisfactory to the Saskatchewan Department of Agriculture, whose representatives will make periodical inspections of cleaning operations as soon as the wheat is released, for delivery to farmers.

Having walls composed almost completely of glass, a New York architect has designed a round school building with a view to saving lighting expense.

French producers of dyes supplied about 96 per cent. of the domestic demand last year.

Macdonald College Celebrates

General view of Macdonald College buildings at St. Anne de Bellevue, Que.

Sir William C. Macdonald.

(2) Chemistry Building, McGill University.
 (3) Physics Building, McGill University.

(4) Macdonald Engineering Building, McGill University.
 (5) Macdonald Hall, Guelph, Ontario.

The Twenty-Fifth Anniversary of Macdonald College is being celebrated with particular emphasis on Founder's Day, February 10th, focuses attention on this institution and its founder, the late Sir William C. Macdonald who founded the entire institution at an expense of more than six million dollars.

Founder's Day which this year marks the 101st Anniversary of the birth of the late Sir William C. Macdonald, founder of the Macdonald Tobacco Company and Canada's greatest benefactor, once more draws attention to the tremendous scope of his benefactions. Macdonald College at St. Anne de Bellevue is affiliated. These benefactions total more than twelve and one-half million dollars, \$10,690,165 of which was given during life. While the Faculty of Science and the Faculty of Agriculture was possibly

the dearest to Sir William's heart, every faculty of the McGill University benefited during his life and after. The Faculty of Law received \$225,500. The Conservatorium of Music \$300,000. The Faculty of Medicine was bequeathed \$500,000. The McCord Museum Building was purchased at a cost of \$142,000, while the Macdonald Park site now occupied by the Stadium, and the Student's Park was purchased at a cost of more than a million dollars and presented to the University. Student's activities came under the beneficent scope of Sir William as the McGill Union testifies. Sir William spent \$219,000 on his erection and equipment. In addition to the wonderful equipment at St. Anne de Bellevue, those buildings at McGill which bear the Macdonald name and those donated by the late Tobacco knight, stand

today, as the greatest monument to his memory. Macdonald College was founded by the late Sir William in 1907. It was designed to include three schools—one for agriculture, one for household science and one for normal teacher training. The gift included the grounds, almost 800 acres in extent, the complete equipment and endowment. The college itself was incorporated with the University of McGill as the Faculty of Agriculture, although the teachers' training feature is possibly his best known contribution to life in the Province of Quebec. Other sections of the country have benefited by the late Sir William's benefactions, the Macdonald Institute and the Macdonald College, Guelph, being among the most important.

Recipes For This Week

(By Betty Barclay)

PRUNE WHIP

- 1 pint milk.
- 3 tablespoons sugar.
- 1 junket tablet.
- 1/2 teaspoon lemon water.
- 1/2 teaspoon lemon extract.
- 3/4 cup prune pulp.
- 2 teaspoons lemon juice.
- 1/4 cup sugar.
- 1 egg white.

Beat egg white until stiff, add sugar gradually until thoroughly blended. Add prune pulp (prepared by rubbing cooked prunes through a sieve) and lemon juice. Half fill 5 tall glasses with the whip. Prepare junket according to directions on package. After stirring a few seconds pour at once, carefully into the glasses to fill. Let stand in a warm room until firm—about 10 minutes. Chill and serve.

DERBYSHIRE SANDWICHES

Run through the meat grinder enough finely sliced boiled ham to make one cup of it when minced, add one-half teaspoon mixed mustard, few drops tobacco sauce, one teaspoon sugar, salt and pepper to taste, and enough Cheddar cheese to make a smooth paste. Spread on thin slices of buttered bread.

In Deference To Jews

The Shakespeare play, "Julius Caesar," has been substituted in the public schools of the province for "The Merchant of Venice," as the result of objections raised by Jewish people. Dr. J. T. M. Anderson, Premier and Minister of Education, told the Saskatchewan School Trustees' Association, when he defended the department's policy regarding text books and denied frequent charges.

Of the 96 different birds that feed upon the cotton-boll weevil, scientists regard robbers and swallows as probably the most effective destroyers.

Germany expects an early restoration of an unrestricted rental market.

Architectural Institute

Officers Are Elected At Annual Meeting Held At Lucerne

Gordon M. West, of Toronto, was elected president of the Royal Architectural Institute of Canada for 1932, at the closing sessions of the 25th general annual meeting at Lucerne, Que.

John Y. McCarter, Vancouver, is first vice-president. Members of the council for western provinces are: Alberta, G. H. Macdonald and R. McD. Symonds; British Columbia, S. M. Eveleigh, John Y. McCarter and Andrew L. Mercer; Saskatchewan, F. H. Portnall and W. G. Van Edmond.

Close Judicial Districts

Four judicial districts of Saskatchewan will not operate this year, as no appropriations have been provided for them by the government for the fiscal year 1932-33. They are: Gravelbourg, Leader, Maple Creek, and Wynyard. In the fiscal year now closing 25 districts operated, and the closing of the four for which no appropriation is provided will mean a saving in expenditure of \$30,870.

Governor Of Queensland

Rt. Hon. Sir Leslie Wilson, Former Governor Of Bombay, Has Received Appointment

Lieut.-Governor Rt. Hon. Sir Leslie Wilson, former Governor of Bombay, has been appointed Governor of Queensland, Australia. He succeeds Lieut.-General Sir T. H. Godwin and will take over his new duties in June. Sir Leslie Wilson is a distinguished soldier and has also occupied important government posts. He served in the South African war, and in the Great War commanded the Hawke's battalion, of the Royal Naval Division, serving throughout Gallipoli and later in France.

Farm Implements Exported Canadian farm implements exported during January were valued at \$120,324, an increase of \$9,300 over December, 1931. The Dominion Bureau of Statistics reported recently. The best purchaser was the United States at \$43,486. Great Britain's purchases totalled \$15,806.

France now has about 80 daily newspapers and 200 magazines.

"Pardon me, constable, can you tell me if there's an optician near here. I've lost my glasses."—The Passing Show, London, England.

WHEN FOOD SOURS

ABOUT two hours after eating a meal, many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient and harmless. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for correcting excess acids. See a bottle—any drug store.

The ideal diet for clean teeth and healthy gums is Phillips' Dental Magnesia, a superior tooth-paste that safeguards against acid-mouth. (Made in Canada.)

THE HOUSE OF DREAMS-COME-TRUE

Author Of
"The Splendid Policy," "The Hermit
Of Far"
Hodder & Stoughton, Ltd., London.

CHAPTER XIII.—Continued.

He was looking, not at her but beyond her, as she spoke, as though his thoughts dwelt on some past memory. His expression was inscrutable; she could not interpret it. Presently he turned back to her and thought she smiled there was a deep, unathomable sadness in his eyes.

"I've had one unforgettable lesson," he said quietly. "The Tormarin temper—the cursed inheritance of every one of us—has ruined my life just as it has ruined others before me."

The words seemed to fall on Jean's ears with a numbing sense of calamity, not alone in that past to which they primarily had reference, but as though thrusting forward in some mysterious way into the future—her future.

She was conscious of a vague foreboding that that "cursed inheritance" of the Tormarins was destined, sooner or later, to impinge upon her own life.

At night, when she went to bed, her mind was still groping blindly in the dark places of dim premonition. Single sentences from the afternoon's conversation kept flitting through her brain, and when at last she slept it was to dream that she had lost her way and was wandering alone in a wild and desolate region. Presently she came to a solitary dwelling, set lonely in the midst of the interminable plain. Three wretched-looking scrubby little fir trees grew to one side of the house, all three of them bent in the same direction as if bent in the same direction by a common wind.

She was conscious of a vague foreboding that that "cursed inheritance" of the Tormarins was destined, sooner or later, to impinge upon her own life.

"Ah! there you are!" he exclaimed, as though he had been expecting her. "I've been waiting for you. Will you come into my parlour?"

He smiled at her as he spoke—she could see the even flash of his white teeth—but there was something in the quality of the smile which terrified her, and without answering a word she turned to escape.

But he overtook her in a couple of strides, catching her by the hand in a grip so fierce that it seemed as though the bones of her fingers must crack under it.

"Come into my parlour," he repeated. "If you don't, you'll be stamped forever with the mark of the beast. It's too late to try and run away."

Jean woke in a cold perspiration of terror. The dream had been of such vividness that it was a full minute before she could realize that, actually, she was safely tucked up in her own bed at Staple. When she did, the reality was so immeasurable that she almost cried.

The next morning, with the May sunshine streaming in through the open window, it was easier to laugh at her nocturnal fears, and to trace the odd phrases which, snatched from the previous day's conversation with Burke and Tormarin and jumbled together, had supplied the nightmare horror of her dream.

But, even so, it was many days before she could altogether shake off the disagreeable impression it had made on her.

CHAPTER XIV.

A Compact

"You don't like Jean Peterson," Burke made the announcement without preface. He and Judith were sitting together on the verandah at Willow Ferry, where their coffee had been brought them after lunch. Judith inhaled a whiff of cigarette smoke before she answered. Then, without any change of expression, her eyes fixed on the glowing tip of her cigarette, she answered composedly:

"No. Did you expect I should?"

"Well, hang it all, you don't hold her accountable for her father's defection, do you?"

A dull red crept up under Mrs. Craig's sallow skin, but she did not lift her eyes. They were still intent on the little red star of light dawning slowly into grey ash.

"Not accountable," she replied coolly. "I look upon her as an unpleasant consequence." She bent forward suddenly. "Do you realize that she might have been my child?" There was a sudden vibrating quality in her voice, and for an instant a rapid look came into her face, transforming its hard lines. "But she isn't. She happens to be the child of the man I loved—and another woman."

"You surely can't hate her for that?"

"Can't I? You don't know much about women, Geoff. Glyn Peterson stamped on my pride, and a woman never forgives that."

She leaned back in her chair again, her face once more an indifferent mask. Burke sat silent, staring broodingly in front of him. Presently her glance flickered curiously over his face.

"Why does it matter to you whether I like her or not?" she asked, breaking the silence which had fallen. Burke shifted in his chair so that he faced her. His eyes looked far more red than brown at the moment, as though they glowed with some hot inner light.

"Because," he said deliberately. "I'm going to marry her."

"So that's the meaning of your constant pilgrimages to Staple, is it?"

"Just that."

She laughed—a disagreeable little laugh like a douche of cold water. "You're rather late in the field, aren't you?"

"You mean that Blaise Tormarin wants her?"

"Of course I do. It's evident enough, isn't it?"

Burke pulled at his pipe reflectively.

"I should have thought he'd had a sickener with Nesta Freyre."

"So he had. But not in the way you mean. He never loved—Nesta."

"Then why on earth did he ask her to marry him?"

"Good heavens, Geoffrey! You're a man—and you ask me that! There are heaps of men who ask women to marry them on the strength of a temporary infatuation, and then regret it ever after. Luckily for Blaise, Nesta saved him the 'ever after' part. But—eyeing him significantly—"Blaise's feeling for Jean isn't of the 'temporary' type. Of that I'm sure."

"All the same, I don't believe he means to ask her to marry him."

"No. I don't think he does—means to. He's probably got some high-minded scruples about not asking a second woman to make a mess of her life as a result of the Tormarin temper. He would be just like Blaise to adopt that attitude. But he will ask her, all the same. The thing'll get too hot for him. And when he asks her, Jean will say yes."

Racking Coughs in Old Age

strong for him. And when he asks her, Jean will say yes.

"You may be right. I've always said you were no fool, Judy. But if it's as you think, then I must get it first, that's all. First or last, though—I'll back myself to beat Blaise Tormarin. And you've got to help me."

Followed a silence while Judith threw away the stump of her cigarette and another. She did not hurry over the process, but went about slowly and deliberately, holding the flame of the match to the tip of her cigarette for quite an unnecessarily long time.

At last:

"I don't think I do," she said slowly. "I don't think I—say—your wife much, Geoffrey. She won't be a very happy woman, so I don't mind assisting Glyn Peterson's daughter to the position. It would make things so charming all round if he and I ever met again!"—smiling ironically.

Burke looked at her with a mixture of admiration and disgust.

"What a thorough-going little beast you are, Judith," he observed tranquilly.

She shrugged her thin, supple shoulders with indifference.

"I didn't make myself, Glyn Peterson had a good share in kneading the dough; why shouldn't his daughter eat the bread?" And anyhow, old thing—her whole face suddenly nothing—"I should like you to have what you want—even if you wanted the moon! So you can count on me. But I don't think you'll find it all plain sailing."

"No"—sardonically. "She'll likely be a little devil to break. ... Well, start being a bit more friendly, will you? Ask her to lunch for a day's fishing."

Accordingly, a day or two later, a charming little note found its way to Staple, inviting Jean to lunch with Mrs. Craig.

"I shall be quite alone," it ran, "as Geoffrey is going off for a day's fishing, so I hope Lady Anne will spare you to come over and keep me company for an hour or two."

Jean was delighted at this evidence that Judith was thawing towards her. She was genuinely anxious that she should become friends, feeling that it was up to her, as Glyn's daughter, to atone—in so far as friendliness and sympathy could be said to atone—for his treatment of her. Beyond this, she had a vague hope that later, if she and Judith ever became intimate enough to touch on the happenings of the past, she might be able to make the latter see her father in the same light in which she herself saw him—as a charming, lovable, irresponsible child, innocent of any intention to wound, but with all a child's unregarding pursuit of a desired object, irrespective of the consequences to others.

(To Be Continued.)

Chap Lead Rental

Fifty Dollars a Year Paid For Property Worth \$7,500.00

For one of the most valuable properties in London, a rental of \$50 a year is paid. This rental has not varied for centuries. It pays for the use of land on which is built the Mansion House, the official residence of the Lord Mayor.

The site of the Mansion House is owned by the rector of the parish of St. Mary Woolnoth, in Lombard Street, with which parish is combined the oddly named St. Mary Woolchurch-Hill. The Mansion House stands partly on the site of St. Mary Woolchurch, which was burned down in the Great Fire of London.

Shortly after the fire this parish was amalgamated with St. Mary Woolnoth and when the Mansion House was built at the end of the eighteenth century the city corporation agreed to pay the rector of the combined parishes the sum of \$50 a year as ground rent.

So the rector receives \$50 every half year for the site, which is valued at more than \$7,500.00.

Hemp, said to be the oldest cultivated fibre in the world, was grown in China as early as 2800 B.C.

Banned From Russia

Trotzky and 36 Others Forbidden For All Time To Enter Land Of Soviets

Leon Trotzky and 36 other Russian emigres living abroad were formally stripped of their Soviet citizenship recently and forbidden "for all time" to enter the Union of Soviet Socialist Republics. The action was taken by the presidium of the central executive committee.

In the case of Trotzky, the action was a mere formality, for he was banished permanently from the Soviet Union two years ago and sent to Istanbul, Turkey, where he since has lived as a bitter enemy.

Trotzky was banished after an open split with Josef Stalin, Russia's strong man. He became a leader of the left-wingers, who preached a doctrine of world revolution as a necessity before socialism could be built in one country.

Other former Soviet citizens who had fled under Sunday's ban were identified with Mensheviks or their sympathizers. Few of them were well known.

GAINED 1/2 lb. A WEEK

Kruschen Stopped It—Now 11 lbs. Down

"I started to take Kruschen Salts a month ago, to reduce my weight—after trying several other ways. I am pleased with the results, as from 224 lbs., I have lost 11 lbs., which I think is a move in the right direction. I feel better all round, and am hoping to get down to 168 lbs. I am 55 years of age, and 5 feet 8 inches, and was putting on a pound per week, so you see I have cause to be thankful for Kruschen Salts."

An over-stout person is an auto-intoxicated (or self-poisoned) person whose internal organs are failing to expel from the body the waste products of digestion. Allowed to accumulate, this waste matter is turned into liver after layer of hideous fat.

The size salts in Kruschen assist the internal organs to perform their functions properly—to throw off each layer of the waste matter which encumber the system. Then, little by little, that ugly fat goes—slowly, yes—but surely, and you feel so wonderfully healthy, youthful, and energetic—more so than ever before in your life!

FREE TRIAL OFFER

At our expense, we have distributed a great many "trial" packages which we will be glad to give you for your own use. This is a trial package of our regular 75c. bottle together with a separate trial bottle—sufficient for about two weeks' use. The trial bottle is not for sale, and, if not entirely convinced that Kruschen is the best, you may return it for a full refund. The regular bottle is still as good as new. Take it now, and you will be glad to see it at your own expense. What could be fairer? Manufactured by Dr. J. C. Kruschen, Ltd., London, England. (Pack, 1150). Importers: McMillan's Bros., Ltd., Toronto.

Decrease In Horses and Cattle

Alberta horses, mules and cattle have all decreased in number, according to the census of 1931 carried out by the Dominion Bureau of Statistics. But there are large increases in sheep, swine and poultry. Horses have decreased from 806,244 in 1921, to 731,989 in 1931; mules from 3,772 to 1,932; cattle from 1,383,552 to 1,136,616; sheep have increased from 49,164 to 78,298; swine from 42,228 to 1,062,908, and poultry from 5,176,302 to 9,046,428.

COMFORT FOR COLICKY BABIES

... THROUGH CASTORIA'S GENTLE REGULATION

The best way to prevent colic, doctors say, is to avoid gas in stomach and bowels by keeping the entire intestinal tract open, free from waste. But remember this: A tiny baby's tender little organs cannot stand harsh treatment. They must be gently regulated. This is just the time Castoria can help most. Castoria, you know, is made specially for babies and children. It is a pure vegetable preparation, perfectly harmless. It contains no harsh drugs, no narcotics. For years it has helped mothers through trying times with colicky babies. It has helped children suffering from indigestion, gas, and fever. Get genuine Castoria on hand, with the name:

Find Ancient Wall

Excavations Result In Uncovering David's Wall Beneath Dust Of Thirty Centuries

An accident has led to the discovery, only a few yards underground, of the wall which David built around the ancient capital of his Jerusalem kingdom when he captured it from the Jebusites 3,000 years ago. Excavators repairing an old sewer found the long-hidden wall buried beneath the dust of thirty centuries.

The early history of Jerusalem is obscure, but the wall built by David is supposed to have been the first of many erected to protect it against countless tribes of invaders.

Fifty years ago Sir Francis Warren, in a survey of Jerusalem, marked out the approximate position of the first wall, running close by the Temple of Jehovah, but his calculations were not confirmed until the laborers began work on the sewer.

It was some years after David became king of the Israelites that he succeeded in conquering Jerusalem. He established his royal city on the eastern hill, near the site of ancient Zion, seat of the Jebusite rule, and appointed his leading commandant, Jacob, governor of the city of Jebus, which occupied the western hill and became the city of David.

The David wall, which was a wall, surrounded the royal city with a wall, built a citadel and supposedly under divine guidance, chose a site for the Temple of Jehovah, which Solomon erected.

David's wall is not the only discovery which has resulted from the new excavation, however. The workmen first uncovered, twelve feet beneath the surface, a road built in Roman times, made of stone blocks three feet square and a foot thick. Five feet lower another old highway of similar construction was found.

Catering To Tourists

Soviets Buy High Priced Cars To Show Them The Country

Soviet Russia has placed an order in United States for 130 high-priced cars, the cost to be \$400,000, bringing the price of each car over \$3,000.

It is explained that the Soviet will use these fine cars for the purpose of entertaining tourists who may visit the country during the coming season.

No doubt the cars will be driven exactly where the Soviet desires them to go, and those who ride in them will see exactly what the Soviet wants them to look at.

For some years that has been one reason why those who seek to obtain first-hand knowledge of what is going on in Russia have stayed away from that country.

The only condition under which entrance could be secured was that a party should be organized and personally conducted by an agent of the Soviet Government.

Riding around in an expensive car, with the gas paid for by the government, will not change this at all.

Dust Causes Asthma. Even a little speck too small to see will lead to agonies which no words can describe. The walls of the breathing tubes contract and it seems as if the very life must pass. From this condition Dr. J. D. Kellogg's Asthma Remedy brings the user to perfect rest. It relieves the passages and normal breathing is once again established again. Hundreds of testimonials received annually prove its effectiveness.

Word Growing In Use

"World" is a word constantly growing in use—world court, world bank, world trade conferences, world disarmament, world peace—and made possible only through better world understanding.

Distemper responds quickly to Douglas' Egyptian Liniment. Keep a bottle handy in the stable.

The Irish Free State and Czechoslovakia are said to be the only two countries that have the same governments that were in power ten years ago.

Canada's Census

Incomplete returns of the Canadian census taken last June set the population of the Dominion at about 20,360,000. Returns from isolated spots in the north held up final tabulations.

Little Helps For This Week

"Blessed are the meek, for they shall inherit the earth."—Matthew v. 5.

He that is down need fear no fall, He that is low no pride; He that is humble ever shall Have God to be his guide.

I am content with what I have, Little be it or much; And, Lord, contentment still I crave, Because Thou avest such.

—John Bunyan

He, and he only, possesses the earth as he goes toward heaven, by being humble and cheerful, and content with what his good God has allotted him. He has no turbulent, desiring, vexatious thoughts that he deserves better; nor is he vexed with his meekness, for he knows that he has more riches than his wise God has allotted for his share. But he possesses what he has with a meek and contented quietness. God has two dwellings—one in heaven, and the other in a meek and thankful heart.—Isaiah Walton.

More War Than Peace

5,153 War Years In The Last 3,421 Years Of World's History

There have been 3,153 "war years" in the last 3,421 years of the world's history, according to statistics published by the Society of International Law.

The society's report said that so far as is known there have been only 268 "peace years," but incomplete records of this evolution of nations make it difficult to determine definitely whether or even those years were entirely peaceful.

DR. E. ROY BIER (Exodontist) (Dental X-Ray) Extraction of Teeth, Oral Surgery, Announces the removal of his office from the Somerset Block, to 7 Medical Arts Bldg., Winnipeg, Man.

You can cook 3 vegetables AT ONCE

in the same saucepan by using

GANAPAR

Do each vegetable up in its own bag of Ganapar Cookery Parchment. There won't be any odor, not even from cauliflower. All the food value and flavor will be retained. And you use only one burner turned low for cooking. The flavors will not mix!

Do the same with boiled or steamed fish. You'll be delighted with the result. No fishy odor in the kitchen. No saucepan or kettle to clean up. When roasting meat, line your pan with Ganapar. Fats and juices won't burn. No more scraping or scouring of the pan afterwards.

You can use Ganapar repeatedly by simply rinsing it off and hanging up to dry. It doesn't absorb odors. Makes a perfect dish cloth. Silky, strong, and doesn't spread lint. Made by the makers of the famous PARASANI Heavy Waxed Paper in the Green Box.

Special Offer

Most grocers, druggists and department stores have Ganapar on sale, but if you haven't, send this coupon direct to the makers and we'll give you a new and unique booklet entitled "Leftovers", containing one hundred recipes as a bonus for your trouble.

Applied Paper Products, Ltd., Hamilton, Ontario.

Enclosed find 25c for which please send me one full size package of Ganapar Cookery Parchment and your 100 recipes for "Leftovers".

MILBURN'S HEART NERVE PILLS

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Palpitation of the Heart Could Hardly Get Around

Mrs. Charles Storm, R.R. 6, Pelton, Ont., writes—"I was unable to sleep for the heart; couldn't sleep, day or night, and was so weak I could hardly get around."

After taking Milburn's Heart and Nerve Pills I was greatly relieved of these attacks.

My mother also has great faith in them and finds no other medicine can help her so much for heart trouble.

I can assure you that Milburn's Heart and Nerve Pills are a wonderful builder."

Lindsay, Ont., had its first curling game on January 30, as up to that time the weather was so mild that it was impossible to make ice.

Lower Your Feeding Costs by Getting More Out of Your Feed Crops

Letz No. 344
Mixed Feed Maker
with Exhauster Fan, Steel Tower and Dust Collector on Truck

Fully 50,000 farmer owners have positively proved that you can lower the cost of producing milk, beef, pork or mutton with the Letz System of Home Crop Feeding. They have actually proved that Letz Mixed Feed Makers will:

1. Save 25% to 50% of present feed crops by utilizing waste.
2. Release up to 30% of your present feed crop acreage for cash crops.
3. Increase milk and meat production up to 30% through better feed preparation.
4. Save up to 25% of labor in handling feed crops.
5. Improve health and condition of all farm animals.

Stop in and let us show you how the Letz Mill will solve your feeding problem for you.

St. Patrick's Dance In East Community Hall

Famous Radio Orchestra to Play

The committee in charge of the East Community dances have secured Mrs. Trainor's famous old-time radio orchestra of Calgary to play for their St. Patrick's Dance on March 17th.

This orchestra made an outstanding hit at the Crossfield Old-Timers dance on Feb. 2nd. Remember, there will be no increase in prices for this dance.

Floral U. F. W. A.

The regular monthly meeting of the Floral U. F. W. A. will be held at the home of Mrs. Lee Ableman, Wednesday afternoon, March 7th at 2:30. Roll call will be answered by "Pence Quotations."

The lunch committee of each month, consisting of four members, will in 1932, be responsible for the program, and the members are looking forward to very interesting meetings. Everyone welcome.

Coming Auction Sale

Monday, March 14—E. C. Puet's sale of horses, cattle, poultry, implements, etc., 1 mile west of Innisfail. Leslie Farr, Auctioneer.

THREE WORDS

There are three words, the sweetest words
In all of human speech,
More sweet than all the songs of birds
Or pages poets preach.
'I love you?' Wrong by heck!
It is another, sweeter phrase—
'Enclosed find cheque.'
DO IT TODAY!

170 carloads of green feed have been shipped out of Central Alberta during the past month to dried-out districts in the south.

TAX SALE

Copy of Advertisement. Appearing in The Alberta Gazette, Saturday, Jan. 30, 1932.

Each parcel will be offered for sale subject to a reserve bid, and the reservations contained in the existing certificates of title. Terms, cash.

Redemption may be effected by the payment of all arrears of taxes and costs, at any time prior to the sale.

Dated at Dog Pound, Alberta, this 21st day of January, 1932.

G. B. HUNTER,
Secretary-Treasurer.

Local and General

Mrs. P. C. Griffiths spent the week-end in Calgary.

Jack Blegin is making preparations to move back on the farm.

Hughie McFadyen is making satisfactory progress towards recovery following his recent illness.

Rev. H. Young attended the meeting of Red Deer Presbytery last week in Red Deer.

Mr. and Mrs. Fred Landers and Mrs. Hewitt of Cremona were week-end visitors in town.

F. Mossop is confined to his home with complications following a recent attack of the flu.

Miss Catherine Laut and Miss Marjorie Young spent the week-end in Calgary.

Miss Gladys Metherall left over the week-end to resume teaching school at Drayton Valley, west of Edmonton.

A package of 9 lbs. by express from Calgary costs 45c—yet some people will wonder why the trucks are busy.

Before retiring don't fail to investigate the Atlas Tire—a fully guaranteed tire. Sold in Crossfield by the U. F. A. Store.

We are pleased to report that Everett Green who has been seriously ill with pneumonia and peurisy, is gradually improving.

Jas. Belshaw is having some alterations made to the interior of his home. W. Major is doing the work.

On Friday morning last, Ed. Springsteen received a wire informing him of the death of his mother at Blendhem, Ont.

E. G. Buterman, who was on the Capt. Wigle farm last year has moved into town, and is residing in Mrs. McFadyen's house on Osler Street.

T. M. Mair is moving onto the Amery place this week, Jas. Boyle of Calgary will farm the Boyle place, which has been farmed by Mr. Mair for the last three years.

The Ladies Aid of the United Church met at the home of Mrs. Wm. Laut on Wednesday afternoon. Following the business meeting, Rev. Young gave a talk on Africa.

H. McIntyre received a wire from Avonmore, Ont., advising him that his father had suffered a slight stroke. Mr. McIntyre will be leaving for the East within the next few days.

We understand that Ed. Hehr is figuring very strongly on getting married, in fact he has already secured the East Community Hall for March 7th, when the joyous occasion will be celebrated with a dance.

Alex Harrison who has been renting Chris Asmusen's farm for the past three years, moved on to his own farm on Monday. L. Overby and Mel Johnson have leased the Asmusen place and will take possession this week.

Mr. and Mrs. Ernest Amery are leaving tomorrow (Friday) for Walla Walla, Wash., where they will in future reside. Mr. and Mrs. Amery have made a host of friends during their short stay in Crossfield and their departure will be regretted.

A large number of friends of Mr. and Mrs. Wm. Rowney, paid a surprise visit to the young couple on Saturday evening last. Games and contests were the order of the evening. At 11:30, a good and generous lunch was provided by the ladies.

Mrs. F. Mossop entertained the ladies of the Guild at the tea hour on Wednesday afternoon of this week in honor of Mrs. Wm. Urquhart, a bride of last month. A presentation was made on behalf of members to Mrs. Urquhart, who thanked the donors.

C. H. McMillan, chairman of the Public Affairs Committee of the B. of T. is busy working out a scheme to beautify the nuisance grounds. This spot has been an eyesore to the people of this town for many years, and if the Board of Trade can do anything to improve its appearance, to say nothing of the obnoxious smell, it will be worth while.

THURSDAY, Mar. 3rd, 1932

At the United Church service next Sunday evening the subject of address will be "Religion outside the Church." The choir will sing "Lord of the World's Above."

Rev. A. A. Lytle of Calgary will speak in the interests of the Bible Society next Sunday, in the morning at Rodney.

Bill Wood re-opened the Highway Service Garage for the season on Monday.

Alex. Smart returned on Wednesday from the Coast, where he has spent the past month.

Thos. Tredaway returned on Friday from Champion and other southern points. Tom states that the roads south of Calgary were in bad shape, and it was necessary for him to make several detours through fields, and at that he got stuck two or three times.

Mr. Tredaway states that feed is scarce in the south and that stock is in poor condition.

ISAW

Lorne Nichol unloading a tank car of stink (distillate.) Boy, what an odor.

Frank Ruddy with enough proof to win a five dollar bet from George Altonby.

Fred Stevens disposing of several Board of Trade membership tickets.

Adam Cruickshank starting out on a drive to Cremona during Monday's snow storm.

Ed. Meyers, Happy McMillan and Al. Hunter, on their way to the farm home of Mr. and Mrs. Geo. Huser on Saturday evening to enjoy a chicken supper.

Lake Parsons of Dog Pound putting up a \$25.00 deposit with Jack Crocker, so as to get the telephone line extended to his store.

Everett Bills coming in from the West with a truck load of dry wood that weighed over 3 tons.

Bill Woods walking down the road, car stopped, no gas.

Archie persuading Hughie to buy a round.

I heard: Hughie McIntyre damping the Provincial Government and the Debt Adjustment Act.
